7. Scan the QR code
 - Point your phone at the QR code on your computer

Računalnik	Telefon
 <p>The screenshot shows the Microsoft Authenticator app interface on a computer screen. The title is "Microsoft Authenticator". Below it, the heading is "Scan the QR code". The text reads: "Use the Microsoft Authenticator app to scan the QR code. This will connect the Microsoft Authenticator app with your account." and "After you scan the QR code, choose 'Next'." A large QR code is displayed in the center. Below the QR code is a button that says "Can't scan image?". At the bottom right, there are two buttons: "Back" and "Next".</p>	 <p>The screenshot shows the Microsoft Authenticator app interface on a mobile phone. The title is "Scan QR code". The text reads: "Use the Microsoft Authenticator app with your account." and "After you scan the QR code, choose 'Next'." A QR code is displayed in the center, framed by a green scanning box. Below the QR code is a button that says "Can't scan image?". At the bottom, there is a button that says "Enter code manually".</p>

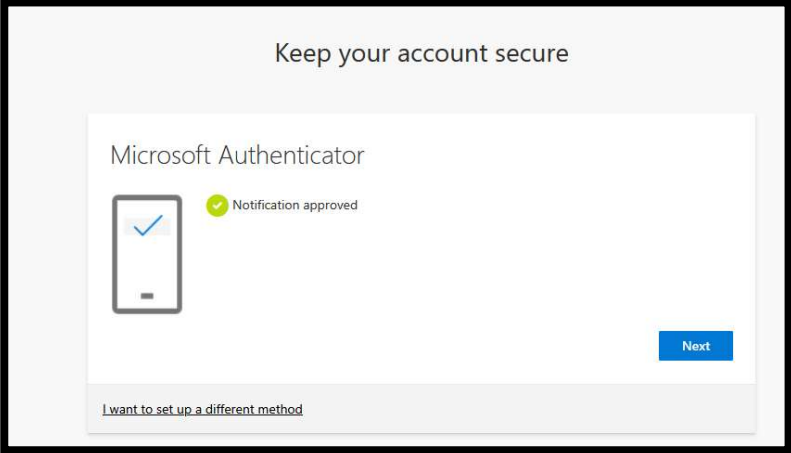

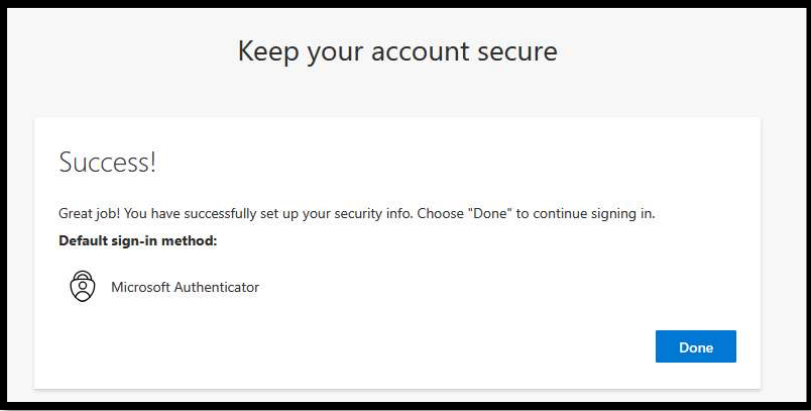

8. Enter the two-digit number

- Enter the two-digit number displayed on your computer into your phone
- Yes
