- Preberi (fotoaparar telefonu) QR kodo in namesti aplikacijo

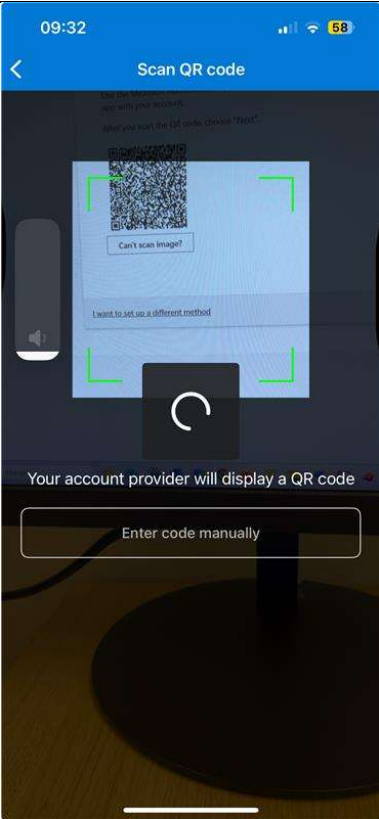

6. Aplikacija MS Authenticator

- Odpri aplikacijo
- + (desno zgoraj) – Dodaj račun (Add account)
- Službenki ali šolski račun (Work or school account)
- Preberi QR kodo (Scan QR code)

Računalnik	Telefon
 The screenshot shows the Microsoft Authenticator desktop application window. The title bar is light gray. The main content area has a light gray background with the text "Keep your account secure" at the top. Below this is a white box containing the Microsoft Authenticator logo and the text "Set up your account". To the left of the text is an icon of a smartphone with a blue signal bar. Below the text is a small instruction: "If prompted, allow notifications. Then add an account, and select 'Work or school'". At the bottom right of the white box are two buttons: "Back" and "Next".	 The screenshot shows the Microsoft Authenticator mobile app setup screen. The status bar at the top shows the time 09:32, signal strength, Wi-Fi, and battery level at 58%. The app has a blue header bar with a back arrow and the text "Add account". Below the header is a section titled "WHAT KIND OF ACCOUNT ARE YOU ADDING?" with three options: "Personal account", "Work or school account", and "Other (Google, Facebook, etc.)". Each option has a right arrow. Below this is a large gray area with a button labeled "Add work or school account". At the bottom are three buttons: "Sign in", "Scan QR code", and "Cancel".

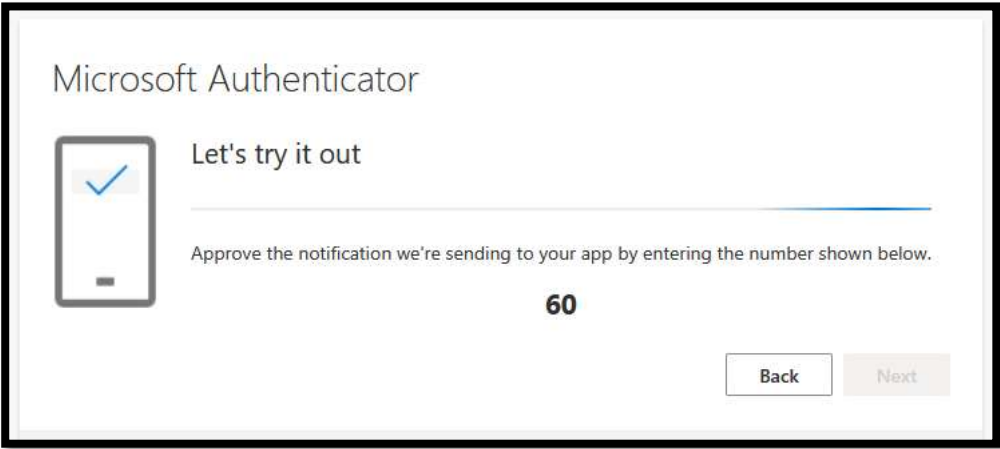

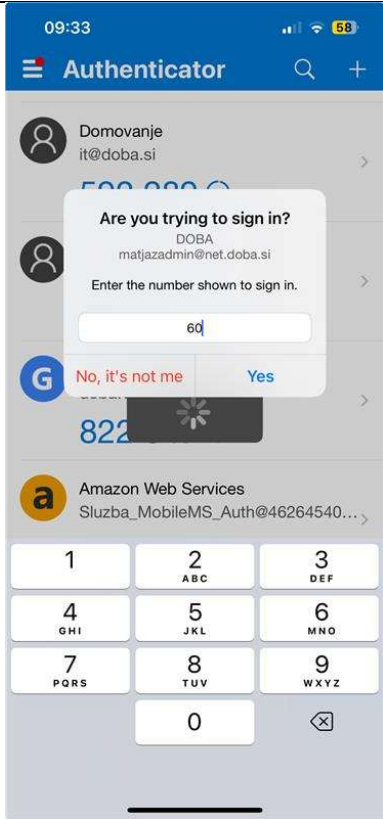

7. Preberi QR kodo

- Usmeri telefon v QR kodo na računalniku

Računalnik	Telefon
Microsoft Authenticator Scan the QR code Use the Microsoft Authenticator app to scan the QR code. This will connect the Microsoft Authenticator app with your account. After you scan the QR code, choose "Next".  Can't scan image? Back Next	

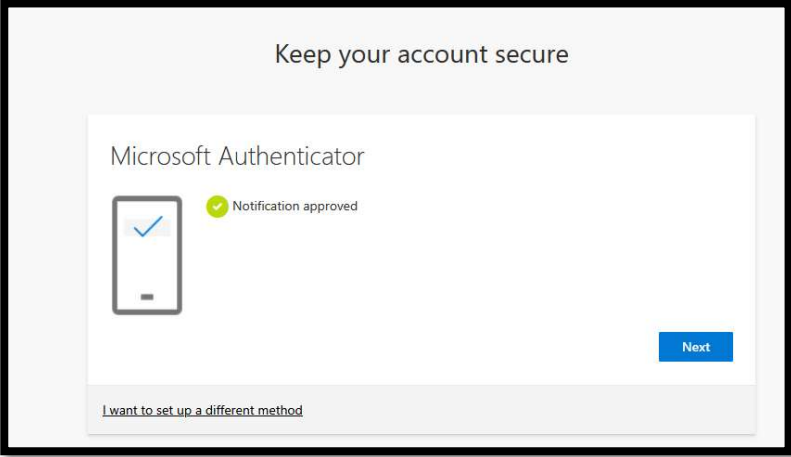

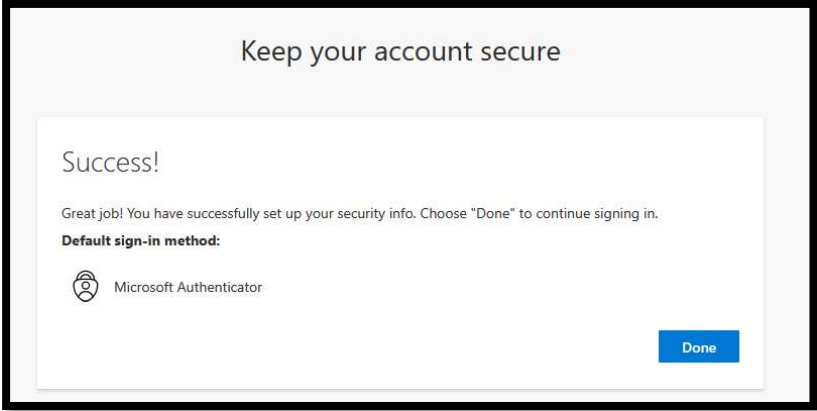

8. Vnos številke

- Dvomesno številko prikazano na računalniku prepisi v telefon
- Potrdi (Yes)

Računalnik	Telefon
	

9. Zaključevanje nastavitve 2FA

- Next
- Done

Računalnik	Telefon
 The screenshot shows a Windows security screen titled "Keep your account secure". It displays the "Microsoft Authenticator" app interface with a notification "Notification approved" and a blue "Next" button. A link at the bottom says "I want to set up a different method".	
 The screenshot shows a Windows security screen titled "Keep your account secure". It displays a "Success!" message: "Great job! You have successfully set up your security info. Choose 'Done' to continue signing in." Below this, it lists the "Default sign-in method:" as "Microsoft Authenticator" with a blue "Done" button.	

10. Ostani prijavljen v brskalniku

- Potrdi (Yes), da zmanjšaš število zahtev za prijavo v prihodnje

OPOMBA: prijava z dvostopenjsko avtentikacijo (2FA) bo zahtevana tudi za okolje M365 (Outlook, MS Teams, One drive).
